DON'T UNDERESTIMATE THE POWER OF A GREAT OFFICE COFFEE

Coffee—caffeinated goodness that can make or break an employee's day. And, great coffee is a valuable office perk that shows you care about your staff's well-being.

That's why we're proud to offer revolutionary brewing technologies along with an incredibly wide variety of K-Cup® blends and brands to please discerning palates.

Furthermore, now that all our pods in Canada are recyclable, we've also introduced K-Cycle™, a simple, commercial program aimed at helping companies consolidate pods for easy recycling.

At Keurig®, we create the ultimate beverage experience in every life we touch from source to cup.

See pages 4 to 9 for details and pricing.

How to Prevent Cross-Contamination

Colour coding allows you to designate one towel type for each area of your business, avoiding the potential hazard of cleaning different types of surfaces (restroom vs. dining room) with the same towel.

Colour-coded towels improve efficiency, lower costs, and help ensure the cleanest possible environment.

SO YOU WANT TO WEAR A FACE MASK? *GOOD CALL.*

Evidence shows that wearing face masks in public, even when you feel well, can help curb the spread of the coronavirus — since people can spread the virus even without showing symptoms. *That's the main reason to wear a mask: to protect other people from you.*

Face masks also offer the wearer some protection, depending on the type of mask. *No mask offers full protection*, and they should not be viewed as a replacement for physical distancing of at least 6 feet from others, frequent hand-washing and avoiding crowds.

When you combine masks with those measures, they can make a big difference.

WATER-BASED VS. ALCOHOL-BASED PERMANENT MARKERS

What's the **difference** and why does it matter?

WATER-BASED INK

- Affordable
- Low or no fumes
- Longer drying time
- Ink can look 'streaky'
- Highly absorbable
- Best for heavier papers

ALCOHOL-BASED INK

- Generally more expensive
- More permanent
- Shorter drying time
- Great for any kind of paper even sketchbooks
- Better for blending

Glitter Slime

Supplies Needed:

- 177 ml **Elmer's Glitter Glue**
- 1/2 tbsp of baking soda
- 1¼ tbsp of contact lens solution

Instructions:

1. Pour 177 ml of **Elmer's Glitter Glue** into a bowl.
2. Add 1/2 tbsp of baking soda and mix.
3. Add 1 ¼ tbsp of contact lens solution.
4. Mix until mixture gets harder to mix and slime begins to form.
5. Take the slime out and knead.
6. If needed, add ¼ tbsp of contact lens solution to make the slime less sticky.

*Adult supervision is required; This project is not appropriate for children under the age of 3 years. Always wash your hands before and after making and playing with slime. Warning: If large quantities of contact lens solution are accidentally ingested (greater than a tablespoon), get medical attention immediately.

Office Chair

Buying Guide

Not sure which chair is right for you?
Let us help you find **your perfect chair!**

Multi-Tilter

The most ergonomic choice. Seat and back can be adjusted independently. Tilt tension and height adjustment come standard. Typically comes with many more adjustable features.

Page 552-563

Synchro-Tilter

Like the Multi, but with fewer paddle adjusters. Seat and back synchronize at a 2:1 ratio. If the back reclines 30˚, the seat tilts upward 15˚ to reduce thigh stress.

Page 563-564

Intensive Use/Big&Tall

These chairs are created for heavy-duty use. They are perfect for areas in shift rotation or for extended use. Reinforced for added strength, these chairs are warrantied for users up to 350 lbs.

Page 559-560

Mesh

These chairs are available with the same ergonomic options as other chairs, but instead of fabric or leather, they have a mesh back, which allows air to circulate.

Page 562-565

Manager/Boardroom

These chairs are ideal for multi-taskers and those who aren't seated for long periods. With height adjustment and tilt tension control, most pivot from the centre of the seat pan for ease of movement.

Page 567-570

Task

Non-tilting chairs ideal for short-duration workstations. Perfect for the home office, warehouse or other areas where the user sits for a short period of time. They typically come with seat and back height adjustment.

Page 571

What to look for in an ergonomic chair

Finding the right chair for your body is important for your **long-term health** and **everyday productivity**

Recline-Ability

Reclining chairs reduce pressure on your spine and posterior, provide freedom of movement, and give your whole body a break.

Features to look for:

- *Back angle adjustment*
- *Tilt-lock control*
- *Seat angle adjustment with forward and rearward incline*

Back Support

Your lower back should fit comfortably against the chair's lumbar support. Your whole back should move easily, improving circulation and allowing oxygen to flow.

Features to look for:

- *Back height adjustment*
- *Adjustable lumbar support*
- *Neck rest*

Seat Depth

If your seat depth is too long, your body will incline forward and lose the benefit of lumbar support. Too shallow and your thighs will not be supported.

Features to look for:

- *Seat depth adjustment*
- *Seat angle adjustment*

Adjustable Arms

Your arms should rest comfortably on the armrests and be parallel to the floor to prevent hunched shoulders. Armrests that pivot or slide inward help different body sizes achieve the same comfort.

Features to look for:

- *Height adjustable*
- *Width adjustable*
- *Depth adjustable*
- *Articulating armcaps*

Chair Height

Your feet should be flat on the floor and thighs parallel to the ground. The height and angle of the seat help you find the perfect position.

Features to look for:

- *Seat height adjustment*
- *Seat angle adjustment*

For safety, always choose casters suited to your work space's floor type.

The best way to use a standing desk

What the experts say

Idleness is the enemy - *mix in movement*

"For 60 seconds [every hour] do something [such as] walking up and down the hallway just to get blood flow going. The key thing is moving."

- Dr. Susan Chan, physical therapist at Stanford Health Care

Move early, move often

"It's the same concept as dehydration during exercise. If you wait until you're thirsty it's too late. If you wait until you have pain before you change positions, it's too late."

- Jack Callaghan, Professor of Kinesiology, University of Waterloo

Take frequent breaks from typing

"I recommend not typing for more than 20-25 minutes at a time in order to allow the muscles to recover — a two to three minute break can be very helpful."

- Dr. Leo Rozmaryn, orthopaedic surgeon for The Centers for Advanced Orthopaedics

ionic

connect. collaborate. create.

Ionic™ benching provides workspace solutions to accommodate short-term seating options for mobile workers and open space solutions for collaborative groups.

Benching units can be personalized to reflect your workspace needs: add accessible power to stations, install PET Felt dividers to provide sound absorption in open spaces, add cushioned pedestals for guest seating, or introduce additional storage for more permanent seating applications. Ionic benching is a versatile solution for modern spaces.

TERMS AND CONDITIONS*

At Monk Office, your satisfaction with our products and services is our highest priority.

PRODUCT RETURNS

If you are dissatisfied with a product, we will gladly accept a return of any stocked merchandise item, in original packaging and resalable condition, within 30 days from the date you received it (technology products excluded). At the time of refund or exchange, you will be asked to produce your receipt and verify your name, address, postal code, and phone number with a government issued ID (e.g. driver's license). All refunds will be credited back in the form of payment originally tendered. If a gift card was used, the amount refunded will go back onto a gift card. Defective products will be exchanged in accordance with the manufacturer's warranty.

IMAGING SUPPLIES (TONER, INK, SPECIALTY MEDIA)

Stocked product in original and unopened packaging can be returned within 30 days of delivery for full credit. Defective products will be exchanged in accordance with the manufacturer's warranty.

TECHNOLOGY PRODUCTS

Returnable up to 30 days, in original packaging and resalable condition, from the date of purchase. This includes: computers, laptops, tablets, e-readers, printers, monitors, cellular/wireless devices, camcorders, digital cameras, and home security products.

SPECIAL ORDER PRODUCTS

Special order items can be returned, in original and unopened packaging, within 30 days and are subject to a 25% restocking fee. Custom stationery products are non-returnable. Defective products will be exchanged in accordance with the manufacturer's warranty.

EXCEPTIONS

Tech services are guaranteed for 30 days from date of customer pick-up. Services that have already been performed (e.g. Tech Services) are non-refundable. All electronic software download purchases are final and cannot be returned. Software that is sealed in original packaging can be returned within 30 days from the date of purchase. Due to copyright laws, we will exchange open software, CDs, DVDs, video games, and music only when media is defective and then only title for title. Pre-paid cards, opened packages of consumable products (such as but not limited to ink/toner, batteries, and food) are not returnable. Defective products will be exchanged in accordance with the manufacturer's warranty.
