## DON'T UNDERESTIMATE THE POWER OF A GREAT OFFICE COFFEE

Coffee—caffeinated goodness that can make or break an employee's day. And, great coffee is a valuable office perk that shows you care about your staff's well-being.

That's why we're proud to offer revolutionary brewing technologies along with an incredibly wide variety of K-Cup® blends and brands to please discerning palates.

Furthermore, now that all our pods in Canada are recyclable, we've also introduced K-Cycle™, a simple, commercial program aimed at helping companies consolidate pods for easy recycling.

At Keurig®, we create the ultimate beverage experience in every life we touch from source to cup.

**A Green Mountain Coffee® K-Cups**

A great tasting cup of coffee can inspire a whole new perspective. From high quality beans to supporting small farms and protecting the environment, Green Mountain Coffee® benefits everyone it touches. 24/box.

## Take the guesswork out with **Brother Page Gauge**<sup>1</sup>

The exclusive Brother Page Gauge feature monitors the ink usage, displays approximately how much ink you have remaining and estimates how many pages you can print, so you never run out of ink during an important print job.

<sup>1</sup>Page Gauge is an estimate for informational purposes only. For actual cartridge yield information refer to [www.brother.com/pageyield](http://www.brother.com/pageyield).

## The Stackable Caddy Organizer System

Includes everything you need to build a portable, customized storage solution.

- Stackable Caddy Organizers let you stack lots of supplies in a small vertical space.
- Lift and Lock Levers connect multiple units together, to make moving supplies easy and convenient.
- Add the Caddy Wheel Base and you're ready to roll your supplies wherever you need them.
- Individual Caddy Containers are removable, and can be hung on the Wall Mounting Bar to keep supplies close, while keeping your work surface clutter-free.

# Office Chair **Buying Guide**

Not sure which chair is right for you?  
Let us help you find your perfect chair!

## **Multi-Tilter**

The most ergonomic choice. Seat and back can be adjusted independently. Tilt tension and height adjustment come standard. Typically comes with many more adjustable features.

**Page 541-550**

## **Synchro-Tilter**

Like the Multi, but with fewer paddle adjusters. Seat and back synchronize at a 2:1 ratio. If the back reclines 30°, the seat tilts upward 15° to reduce thigh stress.

**Page 548-552**

## **Intensive Use/Big&Tall**

These chairs are created for heavy-duty use. They are perfect for areas in shift rotation or for extended use. Reinforced for added strength, these chairs are warrantied for users up to 350 lbs.

**Page 550**

## **Mesh**

These chairs are available with the same ergonomic options as other chairs, but instead of fabric or leather, they have a mesh back, which allows air to circulate.

**Page 552-555**

## **Manager/Boardroom**

These chairs are ideal for multi-taskers and those who aren't seated for long periods. With height adjustment and tilt tension control, most pivot from the centre of the seat pan for ease of movement.

**Page 557-560**

## **Task**

Non-tilting chairs ideal for short-duration workstations. Perfect for the home office, warehouse or other areas where the user sits for a short period of time. They typically come with seat and back height adjustment.

**Page 561**

# What to look for in an ergonomic chair

Finding the right chair for your body is important for your **long-term health** and **everyday productivity**

## Recline-Ability

Reclining chairs reduce pressure on your spine and posterior, provide freedom of movement, and give your whole body a break.

### Features to look for:

- Back angle adjustment
- Tilt-lock control
- Seat angle adjustment with forward and rearward incline

## Back Support

Your lower back should fit comfortably against the chair's lumbar support. Your whole back should move easily, improving circulation and allowing oxygen to flow.

### Features to look for:

- Back height adjustment
- Adjustable lumbar support
- Neck rest

## Seat Depth

If your seat depth is too long, your body will incline forward and lose the benefit of lumbar support. Too shallow and your thighs will not be supported.

### Features to look for:

- Seat depth adjustment
- Seat angle adjustment

## Adjustable Arms

Your arms should rest comfortably on the armrests and be parallel to the floor to prevent hunched shoulders. Armrests that pivot or slide inward help different body sizes achieve the same comfort.

### Features to look for:

- Height adjustable
- Width adjustable
- Depth adjustable
- Articulating armcaps

## Chair Height

Your feet should be flat on the floor and thighs parallel to the ground. The height and angle of the seat help you find the perfect position.

### Features to look for:

- Seat height adjustment
- Seat angle adjustment

## Features

### Desk Tops:

Tops are available in 1" thick thermally fused laminate melamine or 1-1/6" thick high pressure laminate with matching or complementary 2mm PVC edge banding. Top core is constructed from 45 pound density particleboard. Surfaces include factory installed metal inserts for solid and secure leg connections.

### Desk Legs:

28" high H leg design constructed from 2" x 2" square tubing with 1" x 2" rectangular cross bar. Available in black, tungsten or designer white painted finishes.

### Lecterns:

Storage - Featuring looped full pull and full welded seamless tops for added strength and crisp appearance. Configurations are conducive to offering multiple storage options whether storing personal items or keeping active files close at hand. Drawer and door fronts have welded reinforcements for additional strength. Removable cam locks and leveling glides are standard. For flexibility, optional industrial sized casters are interchangeable with feet.

Optional Lectern tops finish the storage lecterns and offer the perfect platform for keeping lectern material at the facilitators/instructors fingertips. Manufactured in thermally fused laminate in the same finishes to compliment desking products.

### Study Carrels:

Feature curved side panels for seated privacy with a 29"H work surface all manufactured in thermally fused laminate. Optional high pressure laminates are available for worksurfaces and optional shelves.

Freestanding/starter and add-on carrels offered; with add-on carrel legs and privacy panel are shared between two adjoining units.

Optional shelves and LED tasklights are available.

Optional Cove Daisylink system brings power, USB charging and data to the carrel, non-directional, easy connect, optional protective guard.
